Hikmah Aldrin Abdillah

Informatics Engineering Student | Front End Developer Enthusiast | Blockchain Enthusiast

Malang City, East Java, Indonesia | 081235373283 | hikmahaldrin44@gmail.com | Github | LinkedIn

SUMMARY

An Front End Developer and Informatics Engineering Student at State Polytechnic of Malang. Currently I'm focused to expand my knowledge about Front End Development to create stunning, user-friendly web applications. Outside of coding, I'm also interested in UI/UX Design , which complements my development skills. I've recently become interested in blockchain and Web3, and I'm in the process of learning more about it.

EXPERIENCE

SkipperWebs – Malang, Indonesia (On site)
WordPress Developer (February 2022 – December 2022)

- Developed and maintained 10+ websites using WordPress.
- Created content as a writer with the assistance of Copy AI.
- Entered and managed data using Microsoft Excel.

Promptive – Bekasi, Indonesia (Remote)
Frontend Developer (September 2025 – Present)

- Developed the company's profile website using Tailwind CSS, with a focus on creating a modern and consistent user interface.
- Contributed to the UI slicing process, transforming design files into responsive and interactive web pages.
- Collaborated with the design team to ensure visual accuracy and alignment with the company's branding standards.
- Collaborated with the development team through GitHub for version control and seamless code integration.
